

PLASTIC TECHNIQUES, INC.

NEW AND IMPROVED CHAINSAW SCABBARD

Introducing PTI Model# CSS-30

- Double wall construction offers substantially more strength and durability.
- New design and construction provides higher static and dynamic load ratings.
- Durable copolymer construction can sustain damage better than fiberglass models.
- Reversible safety tab for inside and outside mounting.
- Built-in stand off for better fit and more ergonomic presentation of the saw.
- Fewer subassemblies for greater longevity and ruggedness than previous models.
- Easy to remove from bucket when not in use.
- Bright safety yellow provides extra visibility.
- Wear rollers are standard to improve the longevity of the scabbard sheath.
- The scabbard is longer than other scabbards with OAL dimensions of 33 1/4".
- The sheath measures 16"L x 6"W.
- Anti dislodgment kit included.
