

PLASTIC TECHNIQUES, INC.

TOE SPACE SCUFF PAD W/ MOLDED IN STEP

- PTI's new toe space scuff pad with molded in step is constructed of a light weight, rugged copolymer and is impervious to dirt, oils and chemicals.
- Non-slip safety walk provides excellent traction.
- Built in extraction handle makes removal quick, easy and provides stability to help prevent tipping or spillage.
- The new design of the step provides a larger step platform but doesn't protrude further into the basket than other PTI models.
- Enables linemen to utilize the work space area available at floor of the bucket
- Improves ergonomics

MANUFACTURED UNDER U.S. PATENT NO. 9,287,024B2
