“TRU-GRIT” SCUFF PADS

PTI's exclusive process suspends thousands of particles of anti-skid material in a molded copolymer scuff pad. The pad is super smooth on the outside to protect the bucket and/or insert. Inside, the pad's abrasive surface provides the lineman with non-skid footing and greater safety!

- PTI's “TRU-GRIT” pads help avoid the ravages of dirt, cut wires and other hazards encountered in normal use.
- PTI's “TRU-GRIT” scuff pad series offers a size to fit most aerial lift bucket inserts.
